

Repercussion is a Neo-Percussion Band based in Germany.

They merge classic-percussion & electronic music to create an unheard, fresh hybrid-sound.

On stage they don't press play - they play: concerts with club-vibes!

Philharmonic hall, festival, urban club - Repercussion opens up spaces: space to feel, space to join in - space to refresh electronic live acts.

The songs will make you listen.

The performance will make you dance.

The vibe will make you come back.

Repercussion is Neo - Classic, Electronic, Drums.
